When creating Toraverb, we did not base it on any current reverb unit available in the market.. We did not implement any “off-the-shelf” algorithm Toraverb is not a classic type reverb unit like spring, room, hall or plate.. AU, VST and AAX versions are available (32-bit and 64-bit) Installing Toraverb 2 was simple, and you can activate it online by logging into your D16 account or by downloading an activation file to.

We did not implement any 'off-the-shelf' algorithm or impulse response Unlike a classic unit such as spring, room, hall or plate, Toraverb is a concept in its own right.. Toraverb is a concept algorithm reverb Using a set of Toraverb was never meant to be an emulation, approximation or a recreation.
