About This Content

**NOTE: THE MAIN GAME X-PLANE 10 IS NOT AVAILABLE ANYMORE!
PLEASE ONLY PURCHASE DLCS WHEN YOU ARE ALREADY OWNER OF X-
PLANE 10!**

There are only very few places on earth with such beautiful scenery in close proximity to an airport as it is with Stewart Airport in British Columbia. At the end of the Portland Canal, almost on the border between the USA and Canada, there lies the town of Stewart with a small, but well-known and popular airport. Tall and majestic mountains tower like walls on both sides of the airport. Combine this complex terrain with bad weather, which usually is the case for most of the year in this region, each approach and departure will be a real challenge.

The Scenery "CZST - Stewart" is up to date the most detailed add-on you can get for the "X-Plane 10" simulator. Discover these details with their high-resolution textures, in a plane or a helicopter and enjoy.

Features

- faithful replica of the real airport with HD buildings and pre-rendered ambient occlusion
- the airport surroundings with handcrafted ground imagery and a resolution of 2cm per pixel
- surrounding Photoscenery at a resolution of 50 cm per pixel covering an area of over 150 square kilometers
- volumetric grass
- hand placed 3D trees and other custom objects
- precisely visualized town of Stewart, with every building modelled in 3ds MAX, the architecture of the buildings fits in precisely with this location
- dozens of hand placed POIs, such as the museum, schools, fire station, port, fuel station, hospital and many others simulator
- many species of HD trees and landscape with dense forest
- hand edited Mesh of the whole area. Edited abnormalities in terrain elevation, perfected roads etc.

OS: Windows XP/Vista/7/8

Processor: 3 GHz, multi-core CPU (or, even better, multiple processors)

Memory: 2 GB RAM

Graphics: with at least 512 MB of VRAM

Storage: 700 MB available space

English,German

When my life goes 0, turn didn't end. It's not only player, npc too. If i face this error, i can't finish that game.

But developer is so passionate. I wish this game will be nice game. I enjoyed this enough to buy a bunch more of them. It's a light adventure clicker where you have to work quickly to keep lots of plates spinning.. Onward style locomotion!

The atmosphere is anxieting and intense, coupled with excellent gunplay and a constant sense of dread (the trailer and screenshots don't capture this feeling)

The controls are fluid and the smooth gameplay adds up to the immersion.

Big, guns, big monsters and loads of grade-A-action

TLDR;

Great atmosphere, gunplay and overall quality. Well worth it.. Amazing app and well worth the \$14 so far but please introduce stencils/custom stencils. Even if it is just uploading transparent .pngs to create a masking layer.. A decent management game. Not worth \$10, buy on sale unless you're really into management games as it gets boring after a short time but it's well done and overall the game I would recommend (just not the price)

a hour of fun reading. 10/10. Finally, a FUN Battle Royale.. What the description does not tell you is that you need terrific reflexes and situational awareness to do all the blocking, dodging, and rapid movement you'll be doing. That wouldn't be so bad, except you also die in one hit.. Get a job as janitor

-Get fired because I'm alcoholic

-Get a job as a salesperson

-Learn Plumbing

?????

-I own three mansions. utter\u2665\u2665\u2665\u2665\u2665\u2665avoid.. first thing i notice a problem with is how short and rushed the teaching vids are, how tf do you learn a complex building system from vids that are 18-22ish sec long. the game looks promising, i see something where we can prototype battlebots and maybe fight them or make robots that react to the enviroment the meet a goal. i know its very early access and those are end game ideas so i welcome the devs to comment so this can be something great
